

Sprint 1 Manual Testing Document

Test User Story 1: As a user, I would like to be able to register and verify a Critika account

First test: When the user first visits our web address, they should immediately see an option to register an account if they are not a member yet.

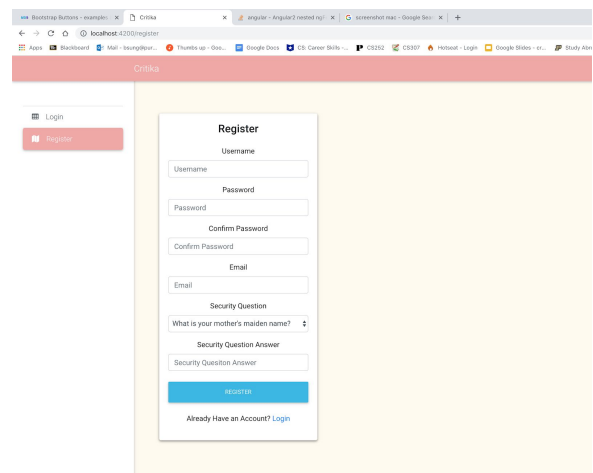

Here, the user opened up our website for the first time. They are presented with options to sign in, if they are already a member, or register an account, if they are not a member yet.

The screenshot shows the Critika website's login page. On the left, there are two buttons: 'Login' and 'Register'. On the right, there is a 'Sign In' form with fields for 'Username' and 'Password', a 'Forgot password?' link, and a 'SIGN IN' button. Below the form, there is a link that says 'Not a member? Register'.

Second test: When the user clicks the “register” button, they should be redirected to our registration page.

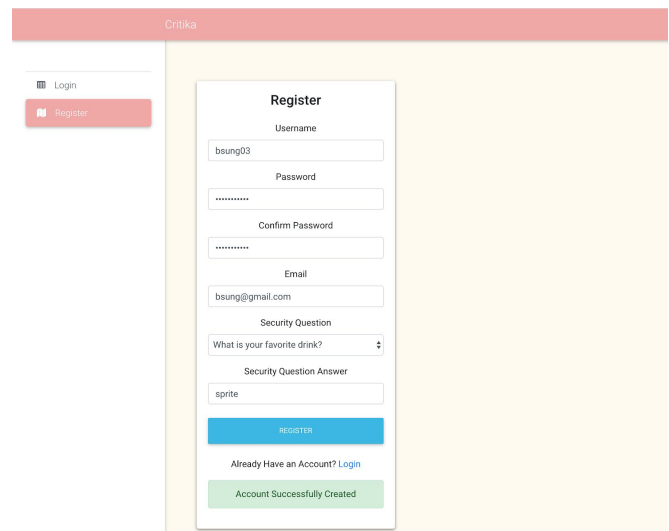

Here the user has just clicked the “register” button and is presented with all the required inputs to make an account

The screenshot shows the Critika website's registration page. On the left, there are two buttons: 'Login' and 'Register'. On the right, there is a 'Register' form with fields for 'Username', 'Password', 'Confirm Password', 'Email', 'Security Question' (with a dropdown menu), 'Security Question Answer', and 'Security Question Answer' (with a text input). Below the form, there is a 'REGISTER' button and a link that says 'Already Have an Account? Login'.

Third test: When the user inputs all the fields correctly and presses the register button, they should have successfully registered an account.

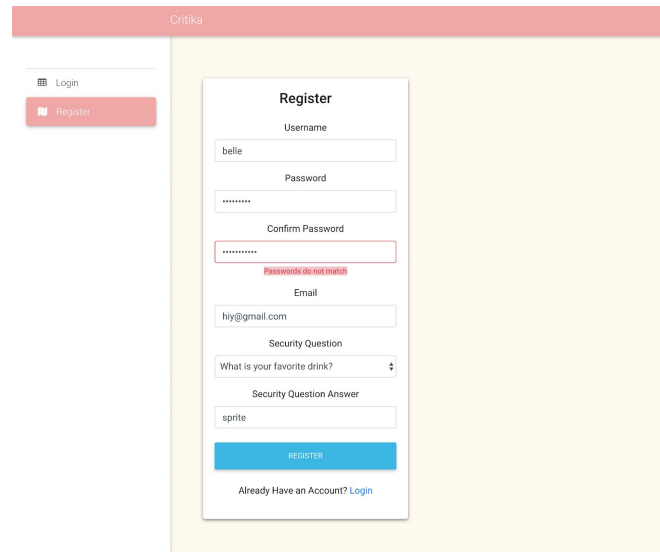

Here the user put in all their information correctly and they are notified “**Account Successfully Created**”

The screenshot shows the Critika website's registration page after a successful registration. The 'Register' form is filled out with the following information: Username: 'bsung03', Password: '*****', Confirm Password: '*****', Email: 'bsung@gmail.com', Security Question: 'What is your favorite drink?', Security Question Answer: 'sprite'. Below the form, there is a 'REGISTER' button and a link that says 'Already Have an Account? Login'. At the bottom of the page, there is a green message that says 'Account Successfully Created'.

Fourth Test: If the user enters in their information incorrectly, they should be notified how to do it correctly.

Here, the user has entered a confirmation password that is different from the original password. They are notified “**Passwords do not match**”

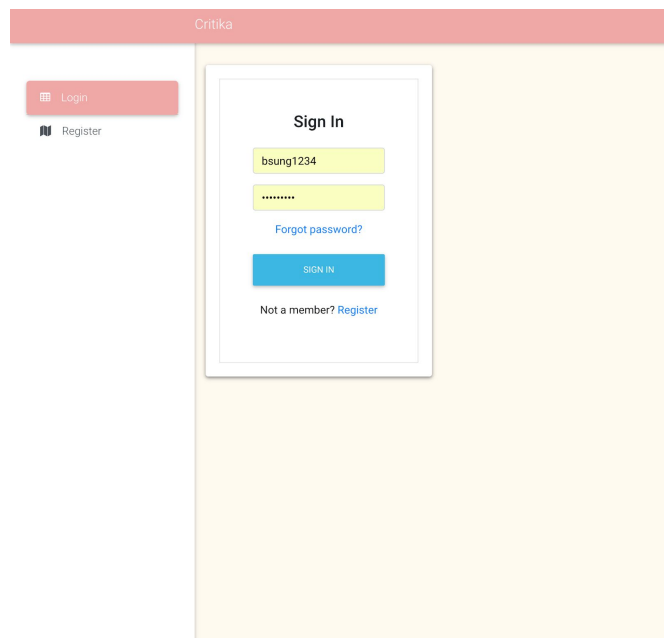

The screenshot shows the Critika website's registration page. On the left, there are two buttons: 'Login' and 'Register'. The 'Register' button is highlighted. The main form is titled 'Register' and contains the following fields: 'Username' (filled with 'belle'), 'Password' (filled with '*****'), 'Confirm Password' (filled with '*****'), 'Email' (filled with 'hiy@gmail.com'), 'Security Question' (a dropdown menu with 'What is your favorite drink?' selected), and 'Security Question Answer' (filled with 'sprite'). A red error message 'Passwords do not match' is displayed below the 'Confirm Password' field. At the bottom of the form is a blue 'REGISTER' button and a link 'Already Have an Account? Login'.

User Story 2: As a user, I would like to be able to login to my Critika account

First Test: If a user has a registered Critika account, they should be able to enter their account information on the initial page.

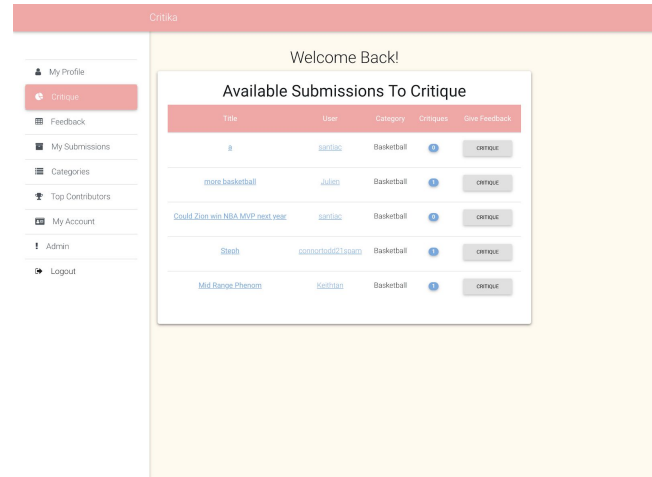

Here the has just reached our website and they have entered their account information.

The screenshot shows the Critika website's sign-in page. On the left, there are two buttons: 'Login' and 'Register'. The 'Login' button is highlighted. The main form is titled 'Sign In' and contains the following fields: 'Username' (filled with 'bsung1234') and 'Password' (filled with '*****'). Below the password field is a link 'Forgot password?'. At the bottom of the form is a blue 'SIGN IN' button and a link 'Not a member? Register'.

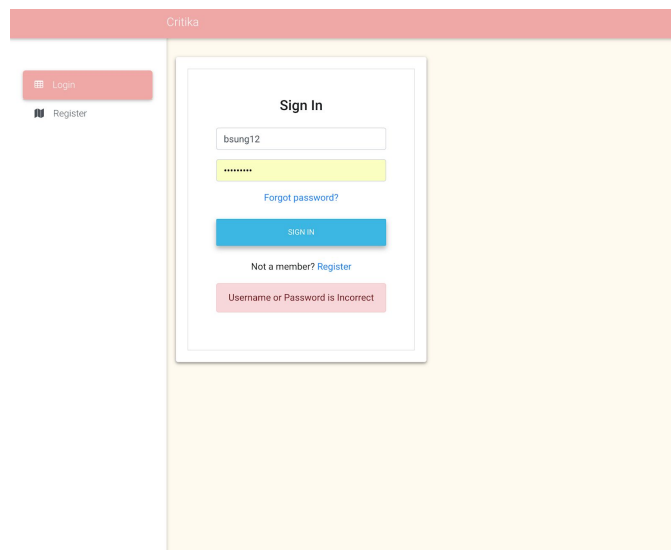

Second Test: If a user has correctly entered their information, they should be redirected to our dashboard page.

Here, this user correctly entered their account information, so they are now seeing the home dashboard page.

Third Test: If a user has incorrectly entered their information, they should be notified that their account login information is wrong.

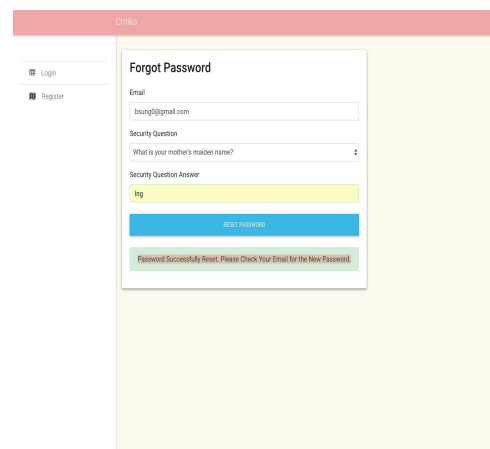

Here, the user has entered the wrong information and they are notified, “Username or Password is Incorrect”

User Story 3: As a user, I would like to be able to reset my password if I forget it.

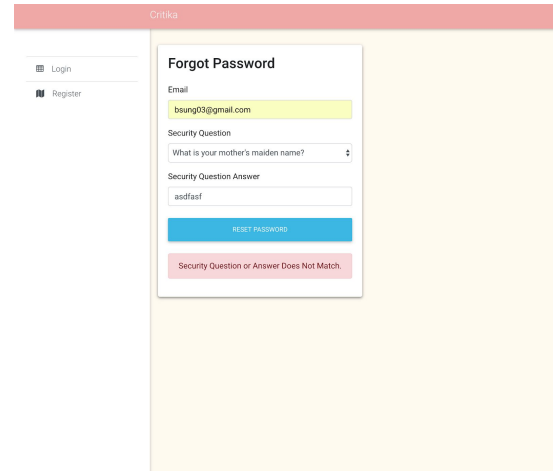

First Test: If the user is trying to reset their password and they enter their information correctly they should be sent an email to change their password.

Here, the user has correctly entered their information, and they are notified “Password Successfully Reset. Please Check Your Email for the New Password.”

Second Test: If the user enters in the wrong email or security question answer, they should be notified and denied from resetting their password.

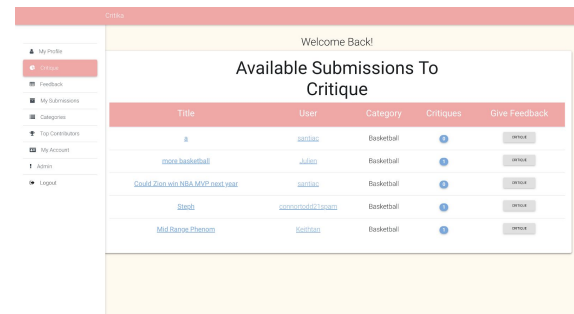

Here the user has entered the wrong, they are notified “**Security Question or Answer Does Not Match.**” and they are denied the password reset email.

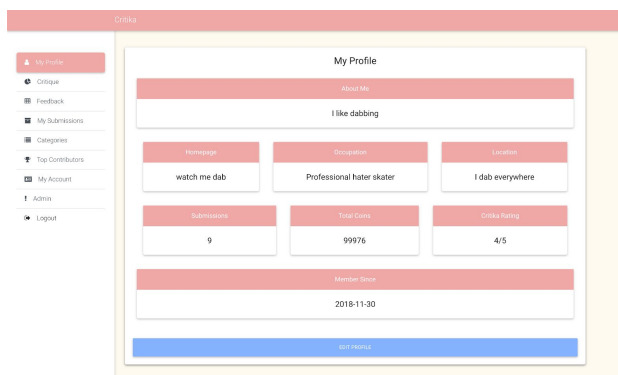

User Story 4: As a user, I would like to be able to view to my Critika profile

First Test: If the user has logged in correctly they should see the navigation bar of the left side. If they click the Profile tab, they should be redirected to their personal Critika profile.

Here, the user is on the dashboard page and can see the navigation on the left side. At the top of the navigation bar is “My Profile”

Title	User	Category	Critiques	Give Feedback
i	santitas	Basketball	0	<button>DETAILS</button>
more basketball	Julian	Basketball	0	<button>DETAILS</button>
Could Zion win NBA MVP next year	santitas	Basketball	0	<button>DETAILS</button>
Stash	santitas0477@gmail.com	Basketball	0	<button>DETAILS</button>
Mid Europe Phoenix	santitas	Basketball	0	<button>DETAILS</button>

Here the user has clicked the “My Profile” tab and has been redirected to their Profile Page.

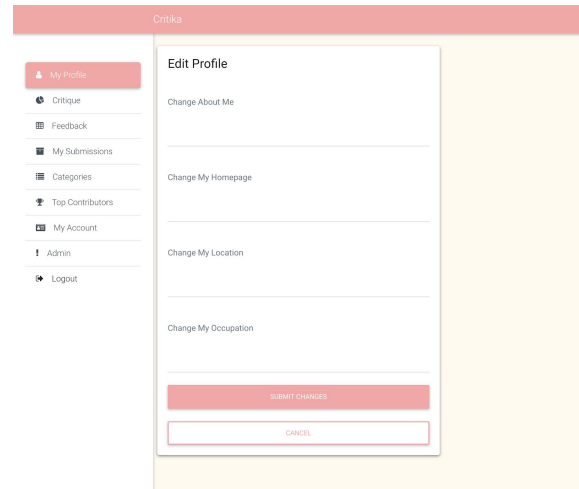

User Story 5: As a user, I would like to be able to edit my Critika account

First Test: If the user wanted to edit their Profile they should be able to click the button at the bottom at the page and be directed to a page to make those changes.

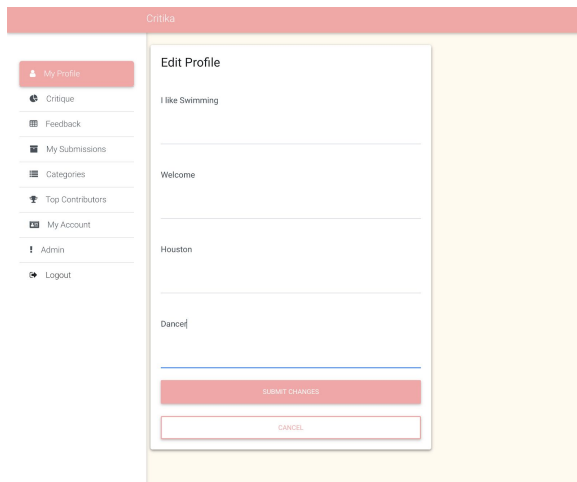

Here the user can see the “Edit Submission” button at the bottom of the Profile page.

Here, the user has clicked the button and has been redirected to the “edit profile” page.

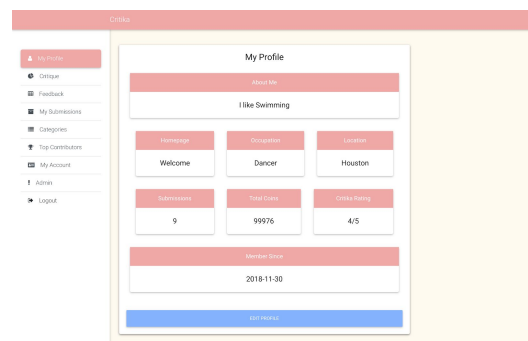

Second Test: If the user has filled in all the fields on the “Edit Profile” page, and clicked “Submit Changes”, then they should see their profile has saved those changes.

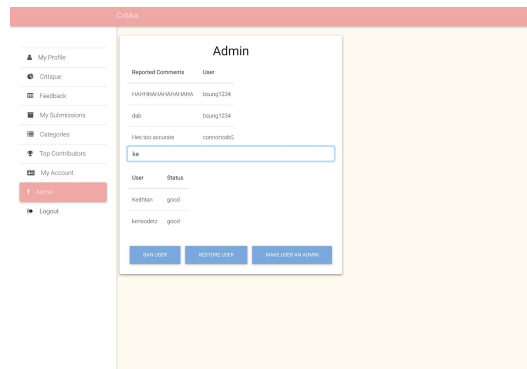

Here, the user has filled in all the fields on the Edit Profile page.

Here, the user has clicked “Submit Changes”, and they have been redirected to their Profile page with all the saved changes.

User Story 6: As an admin, I would like to be able to view all registered users

First test: On the Admin page you should be able to see a text field to see all users

Here, an Admin has securely logged in and is viewing the Admin page with the user's text box.

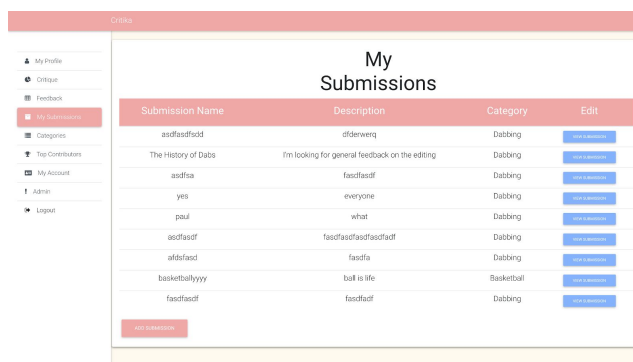

Second Test: An admin should be able to type a username in the text field, “search for user”, to filter through all the users in the text box

User Story 7: As a user, I would like to be able to add other users so that I can collaborate with them further.

Backend tests

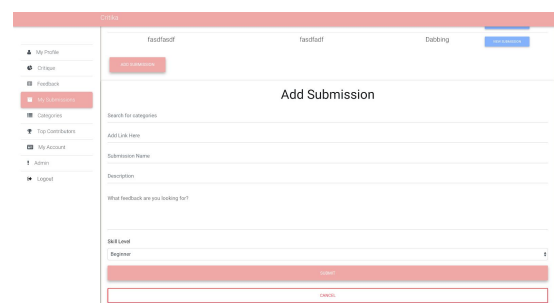

User Story 8: As a user, I would like to be able to submit a form for submission.

First Test: On the “My Submissions” page, the user should be able to click the “Add Submission” button to be redirected to a form to submit

Here, the user is on the “My Submissions” page and can see the “Add Submission” button

After the user clicks the button, they will be redirected to the Add Submission Form

Second Test: If the user completes the form correctly and clicks the “Submit” button, their submission should show up on the “My Submissions” text box.

Backend tests

First Test: On the “My Submission” page, the user should be able to click the “Edit Submission” button on any submission to be redirected to a form to edit

The screenshot displays a web application interface. On the left is a sidebar with a user profile icon and a list of navigation links: 'My Profile', 'Chitkoo', 'Feedback', 'My Submissions' (highlighted in red), 'Categories', 'Top Contributors', 'My Account', 'Admin', and 'Logout'. The main content area is titled 'chitkoo' and features a grid of submission cards. The first card, titled 'fascdfdf', shows the text 'I'm a skater boy' and a 'Like (0)' button. The second card, titled 'fascdfdf', shows the text 'the good kind' and a 'Like (0)' button. Below these is a section for 'My Submission' with a submission titled 'asdfsdfdd'. This submission includes a 'Link: fascdfdf', 'Category: fddk', 'Skill Level: Beginner', 'Description: fufufufufuf', and 'Download: fufufufufuf'. A 'Comments' section below the submission states 'There are currently no comments on the submission.' and includes a 'Leave a Comment' button. At the bottom, there is a 'Guest Comment' button and a partially visible 'Full Submission' link.

Here, the user is on the Edit Submission Page, where they can change anything about that submission to later be saved to the database

Second Test: After edits have been submitted. The “My Submission” page should reflect the change.
